BRAKE PREP™

BRAKE PREP™ is a non-flammable, water-based cleaning compound designed specifically for the cleaning of brakes and clutch assemblies.

BRAKE PREP™ replaces hazardous, chlorinated, and other solvent brake cleaners. **BRAKE PREP™** also complies with OSHA's requirements for water-based cleaning of brakes and clutch assemblies.

BRAKE PREP™ is designed for use in Inland Technology's **IT-2000™** or **IT-3000™** Safety Brake Washer.

BRAKE PREP™ is designed to be diluted: one gallon of **BRAKE PREP™** to three gallons of water for use in the **IT-2000™** or **IT-3000™** Safety Brake Washer.

BRAKE PREP™ may also be used as a spray cleaner at the same dilution.

Physical/Chemical Characteristics

Flash Point: Non-flammable

Initial Boiling Point: 212°F

Specific Gravity: 1.02

Soluble in Water: 100%

VOC content (concentrate): Less than 180 grams per liter

VOC content (application concentration): Less than 45 grams per liter
