

**SAMURAI™**

**SAMURAI™** is an ultra-powerful, industrial-grade cleaner designed to attack the toughest of cleaning jobs without the hazards associated with caustic cleaners or hazardous solvents.

**SAMURAI™** is the most powerful non-caustic, aqueous degreaser, steam cleaning, and pressure washing compound available. **SAMURAI™** is an aggressive aqueous blend of surfactants, alkaline builders, chelating agents, couplers, detergents, and corrosion inhibitors. The synergistic blend quickly removes most stubborn soils, greases, inks, dirt, and other industrial soils or stains.

**SAMURAI™** is an all-purpose industrial cleaner and degreaser. It may be used for engine degreasing, bilge cleaning, pressure washing, steam cleaning, or manual cleaning. It may be used on materials like metals, glass, concrete, tile, fiberglass, or plastics. The dilution ratio will vary depending on the application and contaminant to be removed. The dilution will range from straight, for difficult degreasing operations to 1 part **SAMURAI™** in 600 parts water, for window cleaning.

**Physical/Chemical Characteristics:**

Flash Point:	Non-Flammable
Specific Gravity:	1.04
Solubility in Water:	100%
VOC Content (concentrate):	Less than 82 grams per liter

**National Stock Numbers:**

**6850-01-381-4419**—5 gallon can  
**6850-01-381-4426**—55 gallon drum
