

# IT-200™

## Paint Gun Cleaner – Reclamation System

### PRODUCT DESCRIPTION

The **IT-200™** is designed to use and reclaim Inland Technology's environmentally responsible cleaning solvents; **EP-921™**, **EP-1088™**, and **DRYSOL™**. These solvents have a high flash point, are non-HAP, low VOC replacements for MEK and Lacquer Thinner.

The **IT-200™** automatically cleans cup guns and is complete with a flow-thru brush for hand detailing. The **IT-200™** also has integral hose cleaning attachments for cleaning small pots and lines.

The **IT-200™** is self-recycling and makes use of the on-board **EDGE TEK™** Filtration System that filters down to .1-micron nominal. This system allows for the extended reuse of the cleaning solution.

The **IT-200™** enjoys the following design characteristics:

- Flow thru hose and brush
- Automatic lid closure when not in use
- Hose cleaning cycle
- Hand cleaning cycle
- .1-micron nominal filtration ensures: extended use of cleaning solution, lower operating costs reduces waste
- Stainless steel construction
- Air operated double diaphragm pump
- Air cleaning system
- Ambidextrous foot treadle w/ gas spring dampener

### Specifications

Overall Dimensions:	36" L x 27" W x 42" H
Cleaning Chamber:	24" L 20" W x 14" D
Opening:	21" W x 17" L
Reservoir:	24" L 20" W x 5" D
Sill Height:	42"
